

# SUCCESS STORY

## TURNKEY® Grizzly - T5 S

**Location** : East of France

**Customer** : Chaudronnerie Sauvage

**Bucket** : Multi-purpose bucket for 18t machine

### ” CUSTOMER OBJECTIVES

The customer manufactured a 1200mm wide clamshell bucket in Hardox. The bucket is multi-purpose for an 18-tonne machine. He chose to place his trust us by installing 5 TURNKEY® Grizzly kits with a standard tooth shape.

“ *The standard ‘S’ shape is a long, flat tooth. This profile is ideal for earthmoving and standard multi-purpose use, as it provides good penetration and abrasion resistance.* ”
